**Subject:** 2019 Budget Symposium Slides

Chris,

OCFO asked for ORD to develop some slides for the FY2019 budget symposium (the meeting that OCIR arranged between Agency SBOs and the authorizing committee staff from the Hill) that is scheduled for Tuesday 2/20. As discussed, this is strictly a budget discussion, and I will not comment on policy or areas under development.

Attached are slides that were abstracted from our budget narratives and fact sheets for the issues requested (IRIS, State partnership and Homeland Security). These were requested last night and are due to OCFO by 3:00 today. I apologize for the short turn-around, but please review these and let me know if you have any changes by 2:30 today. My understanding is that the slides will be on a screen, but not handed out to the staffers.

Let me know if you have any questions. Thank you,

This is good. On the first Iris slide, please work in the following from page 3 of the S&T HHRA narrative... the Agency is reviewing IRIS to ensure that it supports public health decision-making while continuing to support all EPA programs.

Here's my attempt. I cut Homeland to one page, trimmed and re-arranged the IRIS language and trimmed the states slide as well.

I hope my edits to IRIS addressed Carol's comment about streamlining/restructuring, but please let me know any further work or changes needed.

Thanks!

Thank you!!

Actually these are a bit too long – aim for 3 or 3 ½ pages

and for IRIS I would focus on the re-structure of their products to streamline operations

Carol,

Here's a first cut at some slides for the 19 symposium. They include IRIS, state partnership and homeland security. Please let us know if this is in the ballpark of what you're looking for.
